Job Title:	Medical Records Technician	Open Date:	July 2, 2024
SL Program:	Spirit Lake Health Center	Close Date:	July 16, 2024

Position Objective: This position performs medical record technician duties in support of the Spirit Lake Health Center (SLHC) Health Information Management Department.

Work is performed and duties are carried out in accordance with established policies, procedures, and SLHC core values: VALUES.

Major Duties & Responsibilities

- Ensures that confidentiality of patient health records is maintained at all times.
- Interacts with patient registration and business office to verify if the patient currently has an already existing number, that may be in-active or if the patient needs to have a new chart number issued. This is done by researching the electronic health records and the patient registration package for positive verification in order to prevent duplicate charts being created in the RPMS package.
- Ensures medical record availability by routing paper records to the physicians for review and signature, in order to scan the paper record into the Vista Imaging package.
- Scans medical documents into the Vista Imaging package, based on specialty and location of the medical record. Keeps the paper records that are scanned, until Quality Assurance (QA) is done. Responsible for retrieving paper records from the Nurses Station and Pharmacy Department, once or twice a day for scanning.
- Responsible for providing Quality Assurance (QA) on records done by other HIM staff. Employee will not QA the documents they scanned. Employee will not scan any of their own health records or immediate family member's records.
- Receives and processes releases of information to various entities. Enters the release of information into the ROI Package, when release has been completed. An accounting of releases will be kept and given to the HIM Supervisor at the end of each month.
- Provides medical record information by answering questions and requests of patients, hospital staff, law firms, insurance companies and government agencies.
- Performs the following duties if trained in analyzing and coding process:
 - Completes medical record by reviewing information; notifying health care providers of record deficiencies through EHR; and tracking outstanding records.
 - Collect and analyze information to resolve medical record discrepancies.
 - Maintain historical reference by abstracting and coding clinical data such as disease, operations, procedures, and therapies using standard classification systems and filing documents.
- Keeps equipment operational by following manufacturer's instructions and established procedures. Reports any malfunctions to the HIM Supervisor.
- Must comply with federal laws and regulations as required by the Health Insurance Portability and Accountability Act (HIPAA).
- Performs related duties.

Knowledge Required at a level appropriate for this position

- Knowledge of medical records requirements and functions.
- Knowledge of pharmacy regulations as they pertain to physician orders and medication administration records.
- Knowledge of medical terminology, pharmacy terminology, and a practical knowledge of medical procedures and diagnosis.
- Knowledge of the IHS automated medical records system.
- Knowledge of computers and job-related software programs and office equipment.
- Ability to work with personal computer and utilize a variety of software applications.
- Ability to communicate clearly and effectively, both orally and in writing, using tact and sensitivity.
- Ability to work independently.
- Ability to read, write and understand the English language.
- Skill in prioritizing and organizing work.
- Skill in the provision of customer services.
- Skill in the maintenance of health records.
- Skill in the use of such office equipment as a computer, scanner, fax machine, and copier.
- Skill in oral and written communication.
- Skill in interpersonal relations.
- Skill in keyboarding, typing, and data entry.
-

Supervisory Controls

The supervisor makes specific assignments that are accompanied by clear, detailed, and specific instruction. The supervisor checks completed work for compliance with procedures with instruction, accuracy, adequacy and timeliness.

Guidelines

Guidelines include Health Information Management policies and procedures, HIPAA and other privacy regulation. These guidelines are generally clear and specific, but may require some interpretation in application.
